

VGAGE

Formerly **Valenite**
Gaging Systems

Product Highlights:

- ☞ Self-centering high precision indicating plug gauge
- ☞ Operative range of fabrication on high precision bores from 2.98 mm to 270 mm / 0.117" to 10.62"
- ☞ Measuring range: 0.1 mm to 0.8 mm depending on diameter and style
- ☞ New sleek blue handle and integrated guard
- ☞ Easy entry lead on the spindle
- ☞ Different contact points (material and design) depending on material and shape of workpiece
- ☞ Calibrates from a single mean master ring

Ordering Information

- ☞ Specify the diameter.
- ☞ Specify the tolerance.
- ☞ Specify the part material - aluminum, steel, composite.
- ☞ Indicate the depth of the diameter. In some cases an extension would be required for deep bores.
- ☞ What type of Indicator? (Mahr Federal, Mitutoyo, Starret)
- ☞ Is a stop collar required?
- ☞ Contact location
